## SWIFT JUSTICE FOR MATHIS.

Mayfield Brute Tried, Con-  
victed and Hanged  
Within an Hour.

### KENTUCKY'S EXAMPLE.

Within Six Days After the  
Crime Was Committed  
Negro is a Corpse.

Mayfield, Ky., Aug. 1.—The hanging of Allen Mathis, the negro who criminally assaulted Miss Ethel McLane here last Wednesday night, took place at 8 o'clock last night in a legal manner in the yard of the county jail.

Fully 10,000 people were on the scene, but only a few hundred could see the execution, although almost the entire fence surrounding the scaffold had been torn down by the citizens while the trial was going on. It was only fifty minutes from the time the jury was sworn in until the negro was pronounced dead.

Mathis arrived here at 6:40 last night from Louisville, in charge of Deputy Sheriffs Oscar Elmore and John Golloway and the militia company of Hopkinsville. The local military company met the train and the negro was marched to the courthouse.

Several attempts were made to seize the negro brute, and he was twice in the possession of the infuriated mob. The soldiers quickly surrounded the negro and a number of members of the Hopkinsville company were compelled to draw their guns and threaten to use them unless the mob fell back. The negro would have met his death by lynching, but the crowd decided to let the law inflict the punishment after it had proceeded that far.

Judge Bugg yesterday morning called the special term of court to order, and immediately adjourned until 7 o'clock last night.

When court was opened at 7 o'clock last night and the negro was brought before Judge Bugg, the Judge asked him if he had anything to say, he said: "I want someone to pray for me."

The court appointed W. S. Foy, one of the local attorneys, to represent the defendant, and after a minute or two of consultation it was agreed that Mathis should plead guilty.

When the Judge asked him, "Guilty or not guilty?" he responded, "guilty."

The jurors were ordered to their room and after being out 20 minutes they returned with a verdict of guilty, fixing his punishment at death.

The Judge then ordered the prisoner to stand up and asked him if there was any reason why judgment should not be passed upon him. The prisoner answered "none."

Judge Bugg then passed sentence and ordered that Mathis be taken to the jail and executed at once. The soldiers took charge of him, together with the Deputy Sheriff and the Jailor, and carried him amid great excitement through the streets packed with people to the jail, entering it at the north door.

Mathis was hurried into the jail, where the necessary preparations were made before he was taken out of the south side of the building onto the scaffold.

It is considered probably the quickest time ever made in the trial, conviction and execution of a man.

### MATHIS' AWFUL CRIME.

Mathis on last Wednesday criminally assaulted Miss Ethel McLane at a lonely spot on the Illinois Central railroad about one-half mile from here. Miss McLane is an operator for the Cumberland telephone company and was on her way to her home in the outskirts of the city when assaulted. Mathis dragged her over an embankment and accomplished his purpose, and probably would have killed her but for the fact that her screams attracted the attention of a passing negro teamster, who drove her assailant away.

Mathis was captured on Thursday and narrowly escaped lynching, the officers hurrying him away to the Paducah jail. A part of the mob followed him to Paducah, and it was not deemed safe to allow the prisoner to remain there. On Saturday night he was taken to Louisville

## TWO CALLS TURNED IN.

Fifth Alarm From Rock  
Bridge Stemmery in  
One Year.

### A FIREMAN IS INJURED.

Prompt Replies by Depart-  
ment After a Long  
Period of Rest.

TUESDAY—Alarm turned in from Rock Bridge stemmery.

WEDNESDAY—Small blaze at First and North Virginia.

The fire department, which has not had an opportunity to try itself for some time, has been called out twice this week already. During the season of inactivity the horses have been put through their regular training exercises and responded to both calls with an alacrity that not only pleased the fire laddies but showed that the horses had reached that stage in their training where they can be relied upon.

The alarm turned in from the Rock Bridge stemmery Tuesday caused a great deal of excitement as the department passed up Main street and it was thought at first that a big fire was inevitable, as the large building has so much wood in it that when a fire once gains headway no department can save it. One of the firemen says that the alarm turned in Tuesday is the fifth in the last twelve months. If there was any chance of a fire Tuesday the department did not know it as one wagon got nearly to the building when the driver was told that the fire was "out." The driver then returned to quarters, as did wagon No. 2, which got only as far as Main and Seventh streets.

The call for the department Wednesday morning was turned in from First and Virginia. The cottage belonging to Judge A. H. Anderson and occupied by John Williams, near the corner, was where the blaze started from a defective flue. The response of the department was so prompt that they extinguished the fire with buckets without having to attach the hose to the fire plug, or even take it out of the wagon.

In leaving the department building Mr. W. B. Guthrie, one of the firemen, was thrown from the wagon. He fell to the pavement on his left side but caught the force of the fall on his shoulder and arm and was badly, but not seriously, hurt. It will not give him much trouble or keep him from work.

Hundreds of people rushed out North Virginia street expecting to witness a big conflagration. They returned with a look of disappointment on their faces.

**CHARLIE MILLER,**

New Prison Official, Not  
Kinsman of Dr. Board.

Mr. Chas. B. Miller, the new Deputy Warden at Eddyville, is not a brother-in-law of Dr. Milton Board, as we erroneously stated in the last issue. Mr. Miller is from Dr. Board's county, but is not related to him by marriage or otherwise. The new Warden left Tuesday and entered upon his duties yesterday. We predict that he will make one of the most popular officials the branch prison has ever had.

**The S. S. Convention.**

Don't forget the County Sunday School Convention at Church Hill to-morrow. There will be a morning and evening session. Business will begin at 9 a. m. Basket dinner served on the grounds. Everyone interested in Sunday School work is not only invited but urged to attend. Rev. Gelsner, who has charge of the State work, will be there and give a talk and make a report as to the condition of affairs over the State.

# The State College of Kentucky, LEXINGTON, KY.

The Agricultural and Mechanical (State College) of Kentucky offers the following courses of study, viz: Agricultural, Horticultural, Chemical, Biological, Mathematical, Physical, Normal School, Classical, Mechanical Engineering, Electrical Engineering, Civil Engineering, and Mining Engineering, each of which extends over four years and leads to a degree. Post graduate studies are also provided, leading to a master's degree. Each course of study is organized under a separate faculty. The general faculty number nearly fifty professors and instructors.

County appointees receive free tuition, room rent in the dormitories, fuel and light, and if they remain ten months, traveling expenses.

The laboratories and museums are large, well equipped, comprehensive and modern.

Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the College to supply. The matriculation for the last year was, including Summer school, 815.

Specialists with the necessary number of assistants have charge of each department of natural science. Summer schools are provided for pedagogy, engineering, instruction in science and in arts.

The State College of Kentucky, though bearing hitherto the title of "college," is the only institution in the Commonwealth doing, in any proper sense, university work.

The completion of the College home for young women provides facilities for good board and lodging. It is equipped with all modern conveniences, including both rooms and room for physical culture. It is heated by steam and lighted by electricity.

An opportunity is thus afforded to young women of obtaining a thorough education in classics, modern language, literature, science, mathematics, logic, metaphysics, history, and political economy.

No other institution in the State offers advantages for education of women at all comparable to those offered by the State College of Kentucky.

The Normal Department will be on a better footing than ever heretofore. Last year's largely increased attendance, with the unprecedented growth of the Summer Normal School, both indicate that an era of prosperity surpassing that of all previous years has opened for the Normal Department of the State College.

Summer Diarrhoea in Children.

During the hot weather of the summer months the first unnatural looseness of a child's bowels should have immediate attention, so as to check the disease before it becomes serious. All that is necessary is a few doses of Chamberlain's Colic, Cholera and Diarrhoea Remedy, followed by a dose of castor oil to cleanse the system. Rev. M. O. Stockland, pastor of the First M. E. Church, Little Falls, Minn., writes: "We have used Chamberlain's Colic, Cholera and Diarrhoea Remedy for several years and find it a very valuable remedy, especially for summer disorders in children." Sold by L. L. Elgin and Anderson & Fowler, the up-to-date druggists at Hopkinsville.

Fire destroyed four twelings in Mason county.

Stomach Troubles and Constipation.

No one can reasonably hope for good digestion when the bowels are constipated. Mr. Chas. C. Baldwin, of Edwardsville, Ill., says, "I suffered from chronic constipation and stomach troubles for several years, but thanks to Chamberlain's Stomach & Liver Tablets am almost cured." Why not get a package of these tablets and get well and stay well? Price 25 cents. For sale by L. L. Elgin and Anderson-Fowler Drug Co., (Inc.), up to date druggists at Hopkinsville.

Meteor passed over Henderson last week and frightened inhabitants.

Unnecessary Expense.

Acute attacks of colic, diarrhoea and dysentery come on without warning and prompt relief must be obtained. There is no necessity of incurring the expense of a physician's service in such cases if Chamberlain's Colic, Cholera and Diarrhoea Remedy is at hand. A dose of this remedy will relieve the patient before a doctor could arrive. It has never been known to fail, even in the most severe and dangerous cases and no family should be without it. For sale by L. L. Elgin and Anderson & Fowler, the up-to-date druggists at Hopkinsville.

## SPORTS AND ATHLETICS

Miss Annette Kellerman, the world-famous young Australian swimmer, recently broke all records in a trial swim in the Danube river in Austria, making a distance of 38 kilometers, about 23 1/2 miles, in 2 1/2 hours. Miss Kellerman, who is only 29 years old, bids fair to establish her claim to the title of champion long distance swimmer of the world. She has never been defeated in any contest of long distance swimming, either by man or woman. So far her record is one continuous record of victories. At 15 she won the amateur mile championship of Austria in 11 minutes and 25 seconds, which was 3 minutes and 45 seconds faster than any other woman in the world had done. When she had acquired all the salt water, in 25 minutes, she had won the Australian mile championship. Miss Kellerman has been a professional in the last three years she has won every Australian mile swimming record ever made in that of Miss Kellerman, who won 29 miles with the current in the Thames river in 6:25.00. The Australian girl's beautifully-molded limbs and remarkably well-developed shoulders have nothing masculine about them, but leave no doubt of their strength. The movement of her hands and feet, when in the water, is beautiful. Her feet are small, instep high, and as they move through the air during a dive, resemble those of a Parisian premier danseuse.

A dark horse sprung a surprise at the recent western intercollegiate tennis tournament by capturing the championship. Walter T. Hayes, of Toledo, Ind., holder of the middle west title, and representing Cornell college, upset the forecasts of the critics by winning the honor. It was the first time that the Iowa institution has won in the annual tournament. The new champion has peculiar form in all his strokes, but places so accurately, plays the side spin so closely that he is one of the hardest men in the west to defeat. He rarely takes the net, preferring to stay in the back of the court and force his opponent out of position by well placed drives and lobs. Aside from the actual winning of the title by Hayes interest in the tournament centered mainly in the work of Richard L. Loesch, of Wisconsin representative. His victory over Cyrus Garnett, last year's champion, though entirely unlooked for, was well earned and furnished the surprise of the tournament. Loesch is one of the younger players of Chicago and has been improving rapidly in the last two years. He always has shown well in Wisconsin tournaments and with his partner, Behm, reached the finals in Milwaukee last year. He also won the championship of the Xctec club last fall, defeating the club's best players. The doubles brought out few surprises, as it was expected that Garnett and Gray would prove the winners. The defeat of Loesch and Behm by Hayes and McQuilkin was the most unexpected feature of this tournament, as it was believed they would safely reach the finals. The results of the tournament gives Chicago three points of the necessary seven to obtain permanent possession of the trophy. Cornell college, with its one point gained this year, is the only other college having a leg on the present cup.

Insanity Spills a Genius.

An unsuccessful attempt has been made to secure an exhibition in London of the pictures of Richard Dad, who, according to Dr. Savage, eminent brain specialist, would have been one of the greatest painters of the century had he not crossed the border line between genius and insanity. Dad, on returning from the east, committed a terrible murder, but escaped until he was taken trying to murder a fellow passenger in a carriage. He was sent to an asylum, and while there decorated the walls with some beautiful but wildly fantastic paintings.

Princess a Clever Painter.

Among members of the British royal family who have a talent for painting "princess" is the young Princess Victoria Patricia of Connaught has shown considerable promise, so that it is no surprise to find she has some clever power shown in the new gallery's summer exhibition.

## HOME ENDORSEMENT

Hundreds of Hopkinsville Citizens Can Tell You All About It.

Home endorsement, the public expression of Hopkinsville people, should be evidence beyond dispute for every Hopkinsville reader. Surely the expression of friends and neighbors, cheerfully given by them, will carry more weight than the utterances of strangers reading in far-away places. Read the following:  
 J. B. Cravens, blacksmith, of 320 West 19th street, Hopkinsville, Ky., says: "Doan's Kidney Pills practically gave me a new back. For three or four years a kidney trouble had caused me the most constant and severe aches and pains through my back and compelled me to constantly complain in more than one way. When arising in the morning I felt sore and lame and had to make a great effort to dress myself. The trouble grew worse and a weakness of the kidneys set in which caused me a great deal of annoyance. Willing to try almost anything I purchased Doan's Kidney Pills as soon as I saw them advertised locally and got a box at L. A. Johnson & Co.'s drugstore. They brought me a great deal of benefit. My back is well and strong now and the trouble with the kidney secretions is much relieved. I have a great deal of faith in Doan's Kidney Pills.

### "Make Hay While the Sun Shines."

There is a lesson in the work of the thrifty farmer. He knows that the bright sunshine may last but a day and he prepares for the showers which are so liable to follow. So it should be with every household. Dysentery, diarrhoea and cholera morbus may attack some member of the home without warning. Chamberlain's Colic, Cholera and Diarrhoea Remedy, which is the best known medicine for these diseases, should always be kept at hand, as immediate treatment is necessary, and delay may prove fatal. For sale by L. L. Elgin and Anderson & Fowler, the up-to-date druggists at Hopkinsville.

Woodford county is in throes of local option campaign.

### In Great Demand.

The demand for Chamberlain's Colic, Cholera and Diarrhoea Remedy here has been so great that I have scarcely been able to keep it in stock. It has cured cases of dysentery here when all other remedies failed. Frank Jones, Pikeville, Ind.—This remedy is for sale by L. L. Elgin and Anderson & Fowler, the up-to-date druggists of Hopkinsville.

### Children in Pain

never cry as do children who are suffering from hunger. Such is the cause of all babies who cry and are treated for sickness, when they really are suffering from hunger. This is caused from their food not being assimilated but devoured by worms. A few doses of White's Cream Vermifuge will cause them to cease crying and begin to thrive at once. Give it a trial. Sold by Cook & Higgins.

Lay a Key or Small Piece of Wire Across the Two Knobs Break Circuit.

Two ladies were talking the other day and in some way the telephone subject came under discussion. They both had "party line" telephones. One of the ladies was talking about how somebody will "talk to some other fool for half an hour, and never say anything either, and here I will be nearly wild wanting to order things for dinner or tell Tom what I want him to fetch home. Are you bothered that way?" The other replied: "I used to be, but am not any more. A friend of mine is connected with the service and told me how to put on a choker and I will tell you. You may have noticed those two metal knobs at the top of the instrument. Well, they are there whether you have noticed them or not. Now, when somebody has used the line about twice as long as they ought to, I just lay a key or short piece of wire across those two knobs. Then in a minute or two, I take off my short circuit and can get central all right. I used to feel as if I wanted to say bad words, but I let the gossips feel that way." The hint was thankfully received by the one to whom it was given and perhaps others will be thankful too, says the Danville News.

**A LUNACY CASE TRIED.**

Two Men Tried Charged With Selling Liquor Without License.

His Honor, Judge James Breathitt, has been unusually busy this week, and it begins to look like old times in and about the temple of justice. In the County Court Tuesday and Wednesday ten negro men charged with gaming were tried.

The first six men were found guilty and fined \$20 each and costs, \$5. They live in the Bolivar neighborhood.

The next lot to be tried on the same charge were Tom Saunders, William Quarles and Eph Campbell. Each was fined \$20 and costs, \$5. This crowd live near or on the farm of Dr. John Bell.

The next cases disposed of were Aaron Thomas and Andrew Wallace. They were arranged on the charge of selling liquor in the county without license. The evidence was not sufficient to sustain the charge and they were released.

Yesterday morning a negro by the name of Hume Lawson was brought into court and tried for lunacy. Lawson's home has been at Pembroke for a long time and has had wheels in his head for some time. He stated yesterday that he has frequently received wireless telegraph messages from different people. When Attorney Duffy asked him how he knew they were wireless messages he said: "I knowed dey was wireless 'cause I heard 'em goin' through my head. I jist knowed dey wuz messages 'cause dey wuz messages." It took no time for the jury to decide that Hume was of unsound mind. He was ordered to the asylum.

This negro was one of the star witnesses for the Commonwealth in the prosecution of the nine negroes who murdered in cold blood and horribly mutilated an unknown white man one mile from Pembroke on the night of November 14, 1905. Lawson testified that he recognized the negroes' victim as being the man he had seen in the saloon in Pembroke just before the murder.

**RESOLUTIONS.****Action Taken By City Council On Death of Gus Tandy.**

On the morning of July 24, Gus Tandy, an officer of the city of Hopkinsville, died with shocking suddenness. At a meeting of the city council held on July 27th, the following resolutions of respect were adopted:

Whereas, our official associate, Gus Tandy, city tax collector, has been cut down by the hand of death, in the very midst of a career of usefulness, therefore be it

Resolved, That in his death the city has lost a public officer whose services had been officially endorsed by two successive re-elections. He was always a popular official. Courteous by nature, he was polite and affable in all his dealings with the public and upright and honorable in his official actions.

Resolved, That we deeply deplore the untimely death of Mr. Tandy and extend our sympathies to his bereaved widow and venerable parents in their great sorrow.

Resolved, That these resolutions be spread upon the records of the city, be published in the local papers and a copy transmitted to the family of our deceased associate.

**The Old Reliable Jewelry House**

of Hopkinsville is, after all, the best place to get anything in the Jewelry line. There's a record behind us, a record of over thirty years; a clean record of satisfied customers, a record of honest dealing, for honest quality, honest prices. It's a record any Jeweler might feel proud of. And when we sell an article we have in mind that we have a record to maintain, and no slipshod methods, no careless workmanship, no lack of quality, is ever allowed to mar the record of the past. But to improve, if possible, this record, is ever our aim, and goods are sold for as low a price as it is possible to sell reliable goods.

It will pay you in the end to deal with The Old Reliable Jeweler.

**New York Life.**

Hopkinsville, Ky., April 30th, 1906.

Mr. Walter F. Garnett, Agent,  
New York Life Insurance Co., City.

Dear Sir:

It gives me pleasure to acknowledge receipt of statement of optional settlement on 20-Payment Life Policy, No. 223,593, for \$1,500.00, issued at age 35, with premium of \$52.50, taken out with you Apr. 29, '86. After having been insured for 20 years, I am offered a paid up policy for \$1,599 and a cash dividend of \$406.88, or the total value may be withdrawn in cash—\$1,215.85, (which is more than I have paid in in the 20 years) or a fully paid up policy payable at my death for \$2,219.00.

The cash settlement of \$1,215.85 is equal to Term Insurance at \$12.87 per \$1,000 and an investment of the balance of premiums without per cent. compound interest for twenty years. This showing is certainly a creditable one for the New York Life, and I will be pleased to give you my application for \$1,000 on the Ordinary Life plan.

Yours very truly, C. E. WEST.

## WHEAT

Still Coming In But Not Half the Purchases Delivered.

Long strings of wagons can still be seen coming into town loaded with wheat and have to wait their time for being unloaded. In a talk with one of the leading millers yesterday he said that half the crop sold had not yet been delivered. The highest crop average we have yet heard of is 23 bushels to the acre. The grade may be said to be unusually good. The local price is now 72 cents. Several farmers have told us that they will not sell at the present price, as they believe wheat in two or three months will go to 80 cents, or higher.

Meanness of All. The Okmulgee (Kan.) Democrat, strangely enough, has been having some trouble this winter collecting from subscribers, which has inspired the editor to print the following rebuke:

"A man may use the mole on the back of his neck for a collar button; he may ride a freight to save three cents per mile; he may light the lamp with a splinter, to save matches; he may stop his watch at night to save the wear; use a pencil for a gentleman, to save ink; pasture his grandmother's grave, to save hay, but a man of this kind is a scholar and a gentleman; compared to a man who will take a newspaper, and when asked to pay for it, put it back in the post office, marked 'refused.'"

Do Figures Lie? Two duck merchants occupying adjacent stands had 20 ducks each. Total, 40 ducks.

One's price was 3 for a dollar. The other 2 for a dollar.

During the brief absence of one of the merchants, the other disposed of the 60 ducks at \$5 for \$2.00, for which he received \$3.00.

If sold separately one man would have gotten for 30 ducks at 2 for a dollar, \$15.00.

The other, 30 at 3 for a dollar, \$10.00. Total, \$25.00.

## CORN AND WHEAT

Both Growing On the Same Cob.

Mr. Walter C. Cook sent to this office this week a freak ear of corn. The cob is 9 1/2 inches long, though under the usual thickness, and is partially filled out with corn and wheat. Both are in the milky stage and the grains of each are well developed. It was grown in Mr. Cook's garden along with other corn. Wheat was grown on the farm but none near the garden. Some rye was grown near the garden, however, and if the ear of corn had not been pulled until later might have proven to be rye, but it looks more like wheat. Nothing like it has been seen here before.

## ANNIVERSARY

Students of the Schools to Join in Celebration.

It has been nearly fifteen years since Thos. J. Foster, then editor of a newspaper in Shenandoah, Pa., introduced a method of teaching through the mails by means of special home study textbooks and a system of direction and correction of students' work, the object of which was to enable the coal miners of Pennsylvania to pass the required examination for mine foreman. Although the enterprise was of great interest in the mining communities, not even the founder then dreamed that his plan was the creation of a new educational system that was to turn the whole world into a vast classroom and afford the means by which practical, money-earning knowledge in almost every line could be carried to the thousands that could not give up work or leave home to secure educations.

The International Correspondence Schools now have more than two hundred courses of instruction, covering almost every branch of nearly all the well-known trades and professions. Up to the present time 85,000 students have either completed the courses for which they enrolled or substantial portions thereof; 225,000 other students have completed the study of mathematical, physical, and drawing subjects. The wide-spread practical results of the work of this great "home study" university is demonstrated by the fact that during the last twelve months upwards of 4,000 reports of increased salary or advancement in position have been received from students.

The many thousands that have been enabled to change to congenial or more remunerative occupations, or that have been otherwise benefited by this wonderful system of education, naturally feel a deep sense of gratitude to the man whose genius created and developed the International Correspondence Schools and who is still the active head of the work. As a fitting tribute, a great celebration has been planned for the 16th of October, 1906, the day on which fifteen years ago the first student was enrolled. Hundreds of I. C. S. students and many persons of national prominence in educational work will be in Scranton on that day.

The day will be taken up with appropriate exercises and an interesting exhibit of the school at work preparing and printing home study textbooks and correcting the recitations of students sent from all parts of the civilized world. A banquet to the guests will be given by the schools in the evening.

## Large Men. Stout Men.

Men who think they are hard to fit because they are out of the ordinary—can dress as neatly and becomingly as the most perfect tailor's model.

Inexpensively? Yes, extremely so. It's not the price that makes the fit; it depends entirely on the design and tailoring. Schloss Bros. & Co., of Baltimore and New York, are known the world over as Specialty makers of fine Ready-to-Wear Garments. They have made a study of draping large, stout men and men out of the ordinary proportions.

What we mean by "draping" is not merely "dressing," or "clothing." We mean fitting them perfectly in garments particularly designed to moderate where nature has been profuse and to fit out where nature has been deficient.

In other words, this Schloss clothing not only clothes the figure, but "drapes" it as well,—makes the style of the moment seem to have been especially designed for the wearer.

A trial is all that's necessary to convince you. Come to see us. Try one of these Schloss specialties and you will be surprised to see how well-proportioned and handsomely dressed you can look by simply wearing clothes especially designed by these skillful tailors to fit men of just your build and physique.

Prices are not high! To the contrary, very reasonable, because these celebrated clothes makers cut and tailor these goods in large quantities by the wholesale, and they cost you no more than similar clothes of ordinary size.

We are certain that if you come in and try on one of these suits you will become a permanent patron, and thank us for the suggestion.

Yours truly,

Designed by Schloss Bros. & Co. Fine Clothes Makers Baltimore and New York

### MISS VERA WEAVER

### Won Cake in Most Popular Lady Contest.

Miss Cora Means, teacher at the Major schoolhouse, two miles west of the city, gave an entertainment a few nights ago for the benefit of the school library. A most interesting program was carried out and the affair was greatly enjoyed by all who attended. Nearly thirty dollars was realized for the purchase of new books. The prize, a huge cake, offered for the most popular young lady, was won by Miss Vera Weaver.

### BIG MONTH.

### 67 Arrests Made by Police During July.

Part of the month of July was very quiet in police circles, but the force had enough to do to keep from getting very tired of their jobs. In all there were 67 arrests, but circus day brought the number up to this high figure. The causes of arrests were as follows:

Drunk..... 36  
Breach of the peace..... 9  
Fornication..... 7

The remainder were for street walking, profane language, etc. Forty-three of those arrested belong to the colored population. The amount of fines collected during the month, as shown by the book kept by the Chief of Police, was \$153, but when all the entries are made it will doubtless show a larger total.

### The Yellow Fever Germ

has recently been discovered. It bears a close resemblance to the malaria germ. To free the system from disease germs, the most effective remedy is Dr. King's New Life Pills. Guaranteed to cure all diseases due to malaria poison and constipation. 25c at Hardwick's drug store.

### Bids Wanted on Turnpike Work.

I will, until Saturday, August 11, 1906, receive bids for the construction of three miles of turnpike on the Tobacco Road, south from Pembroke, Ky. I reserve the right to reject any or all bids. ### Great Reduction

### In Prices of Wall Paper

Nobody is absolutely infallible. We all make some mistakes. One of our mistakes of last season was buying too much wall paper.

We want to turn our surplus stock into cash for two reasons, viz: We need the cash and want to make room for the new fall stock. In order to do this,

We will for the next ten days, beginning Monday, July 16, sell everything in the WALL PAPER line at greatly reduced prices.

We mean business.

### STOLE A BUGGY.

### Was Arrested and Took to the Woods While Handcuffed.

A negro by the name of Earle Averett, whose home was in the southern part of the county, got himself into trouble in Tennessee last week. The report goes that he took a fancy to a rubber tired buggy while he was at or near New Providence. He carried the buggy home with him and left it near the house. It having become known who had stolen the buggy, former constable Frank Rives, Constable Adleigh Joiner and another man appeared at Averett's early one morning, just as he had got through putting on his clothes. He was put under arrest and handcuffed. He asked the arresting parties to take off the cuffs and let him put on his coat, but they refused. Afterwards Mr. Rives had to go back to the house for something, when the negro took to the woods wearing his handcuffs. He thus made his escape, and it is also reported that he went to his brother's home and was there relieved of his bracelets.

### A Healing Gospel.

The Rev. J. C. Warren, pastor of Sharon Baptist church, Belair, Ga., says of Electric Bitters: "It's a Godsend to mankind. It cured me of lame back, stiff joints and complete physical collapse. I was so weak it took me half an hour to walk a mile. Two bottles of Electric Bitters have made me so strong I have just walked 3 miles in 50 minutes and feel like walking three more. It's made a new man of me." Greatest remedy for weakness and all Stomach, Liver and Kidney complaints. Sold under guarantee at Hardwick's drug store. Price 50c.

Home grown water-melons and cantaloupes are to be seen on the streets. The water-melons, as far as we have seen, are small and almost fabulously high prices are asked for them. A water-melon that later in the season will bring only 10 cents, now sells for 30 or 35 cents.

Often Attain Great Elevation and  
Are Blown to Far Distant  
Lands.

It was an English astronomer,  
W. R. Davis, who first discov-  
ered the true character of cer-  
tain objects, floating across the  
field of the telescope, which had  
been mistaken for meteorites,  
says Saturday Evening Post.  
He made a readjustment of the  
focus of his instrument for the  
near point, and found that they  
were in reality seeds of various  
plants—such, for example, as  
the thistle and the dandelion.

Undoubtedly such seeds often  
attain a great elevation in the  
atmosphere, and are carried by  
the winds enormous distances—  
which is exactly what Nature,  
anxious for their distribution,  
wishes. For this and no other  
purpose the seed of the dande-  
lion is provided with a tiny para-  
chute, by the aid of which it  
makes aerial voyages, as does  
that of the milkweed.

It is really wonderful what in-  
genuity nature exhibits in such  
matters. The poppy has a sort  
of pepper-dredger, containing its  
seeds, which are thrown broad-  
cast when the wind rattles the  
dry stalk, or when some animal  
knocks against it. The so-called  
"shooting cucumbers" explodes  
when ripe, like a bomb, and scat-  
ters its seeds far and wide.  
Birds, of course, are great dis-  
tributors of seeds and so like-  
wise are water currents. But in  
this line, perhaps, there is noth-  
ing more curious than the "sea  
beans" which people pick up on  
the Florida beaches. Popular  
belief assigns to them a marine  
origin, but in reality they are  
the seeds of certain pod-bearing  
vines which grow plentifully  
along the shores of the Carib-  
bean. They fall into streams,  
are carried into the ocean, and  
the gulf stream fetches them  
into Atlantic waters.

It has been ascertained that  
many kinds of seeds will bear  
immersion in water for four  
months, or even more, and still  
retain their germinating power,  
so that when thrown ashore they  
are ready to sprout.

Japan's Millions.

Recent figures on the popula-  
tion of Japan make the total  
about 5,000,000 more than that  
of the British isles. Tokio has  
about 1,500,000, Osaka 900,000,  
and there are 20 other cities with  
more than 50,000 each. How-  
ever, in making comparisons it  
must be remembered that Eng-  
land's sons are scattered through-  
out her colonies. The British  
empire the world over now has  
a population of nearly 400,000,  
000.

Recitations by Phonograph.

Since the beginning of the year  
a phonograph has been used in  
the theological faculty of the  
University of Vienna. Prof.  
Seubold, the head of the fac-  
ulty has noticed that while recit-  
ing the students always made  
the same mistakes. It then struck  
him that by means of a phono-  
graph their mistakes might be  
demonstrated to them in a strik-  
ing manner. The results exceed-  
ed all expectations.

Due to Salt.

It is not generally known that  
salt has determined, to a consid-  
erable extent, the distribution of  
man. He was forced to settle  
where he could obtain it. This  
brought him to the seashore, and  
started maritime commerce.  
Again, preservation of food by  
salt made long voyages possible,  
and opened up the world to civ-  
ilization.

Always Cool.

It is not shade alone that  
makes it cooler under a tree in  
summer. The coolness of the  
tree itself helps, for its tempera-  
ture is about 45 degrees Fahr-  
enheit at all times, whereas that of  
the human body is a fraction  
more than 98 degrees. A clump  
of trees cools the air as a piece  
of ice cools the water in a  
pitcher.

Strangers Registered.

Every stranger who enters the  
White House at Washington is  
counted by an automatic regis-  
ter. The instrument is held in  
the hand of one of the watchmen  
stationed at the door, and every  
visitor's arrival is recorded for  
official purposes.

# START EARLY!

Farmers will probably start early with their fallowing this season. The ground is in splendid condition now, and wheat threshing is over and the marketing of same is well under way. Oliver Chill Plows are staple the world over. They need no advertising; we just simply state that we handle them. Same with "John Deere."

By-the-way, we'll have something interesting to show you in a day or two in the way of a disc plow, different from, and better than, anything yet offered you.

Empire Drills, both hoe and disc, with and without fertilizer attachment, are still the leading implements in the line. We ask that our friends get their order in early for Fertilizer. Bone Meal will be scarce this season.

## LIEUT. WATERMAN.

Officer in Charge of Monster Exhibit.

Cincinnati, Ohio, August 2.—The United States Government has appointed Lieutenant Waterman, of Ft. Thomas, Ky., as officer in charge of the monster exhibit to be made at the Fall Festival of this city. The officer is well known throughout this section.

The display which the Government is to make, will be the biggest and also the first made in the Middle West. Congressman Nicholas Longworth, the President's son-in-law, was largely responsible for the success in getting the Federal authorities interested in the feat. Secretary of War Taft, also a Cincinnati man, has given permission for a huge War Department exhibit in connection with the Government display.

One of the coining machines used in the mint at Philadelphia will be seen at the fest. It will be in daily operation, a government employee from the mint in charge. The machine will coin souvenirs for the public. Models of battleships; models of arms used by Federal soldiers since the days of Washington; uniform designs; artillery equipment; a huge coin and currency exhibit, with bills from \$1 to \$1,000 denomination; methods of old and modern warfare; soldiers in uniform; stuffed horses, illustrating mode of cavalry attack and defense; likewise many other things will be part of the Government's huge display.

The Cafe Kluge, inside the Festival grounds, will be the biggest ever fitted up in the West. Likewise it will be one of the finest. Hundreds of juniper trees, 16-foot palms, a 20-foot fountain and 1,000 Japanese lanterns are part of the equipment, and are being installed.

## THE DOVES

May as Well Prepare for Being Killed and Eaten.

The insatiable appetite of man comes very near devouring everything in the vegetable and animal world. The time has arrived for killing doves and the slaughter is going on at a terrible rate. On every piece of land where the owner will allow it the bang of the gun is heard and birds are falling. Many of our older citizens can remember when pigeons were killed at the roosts by the wagon load, partridges were so plentiful that a dog was not necessary to find them, squirrels had to be killed to keep them from eating up the corn bordering the woodland, and it was a common thing for the hunter to bring home a woodcock. A man would blush to shoot a dove in those days and boys looked upon them as almost being a sacred bird and would hardly throw a rock at one of them. How things have changed—"since the war!" But the hunter must have something besides clay pigeons to shoot at—and doves are mighty good eating when cooked right.

## TO TAKE A REST.

Mr. L. Yonts Will Go to Eureka Springs Tuesday.

United States Commissioner L. Yonts will start for Eureka Springs, Ark., next Tuesday, expecting to remain until about the 23rd of this month, or longer. Mr. Yonts says that he is growing thinner every day, now weighing only 230 pounds. He says he has sent out notices to every department not to bring him any business until his vacation is out—he is bound to have a rest—if it does stop the wheels of Government for a season.

Mr. Yonts does not seem to be in feeble health, but he has that "tired feeling," apparently, which sometimes takes hold of the most strenuous Government official, and cannot be dispelled except by a change of scenery, water, climate and diet. "Teddy" himself not excepted. The President has Sagamore Hill for a place to get a breathing spell, and Mr. Yonts will try Eureka Springs for the same purpose.

Commissioner Yonts hopes when he returns to be strong enough to make things hum, and bootleggers and other offenders need not expect any mercy at his hands.
